1. Aims

Our school aims to meet its obligations under the Public Sector Equality Duty (PSED) by having due regard to the need to:

- Eliminate discrimination and other conduct that is prohibited by the Equality Act 2010
- Advance equality of opportunity between people who share a protected characteristic and people who do not share it
- Foster good relations across all characteristics – between people who share a protected characteristic and people who do not share it

2. Legislation and guidance

This document meets the requirements under the following legislation:

- [The Equality Act 2010](#), which introduced the Public Sector Equality Duty and protects people from discrimination
- [The Equality Act 2010 \(Specific Duties\) Regulations 2011](#), which require schools to publish information to demonstrate how they are complying with the Public Sector Equality Duty and to publish equality objectives

This document is also based on Department for Education (DfE) guidance: [The Equality Act 2010 and schools](#).

3. Roles and responsibilities

The governing board will:

- Ensure that the equality information and objectives as set out in this statement are published and communicated throughout the school, including to staff, pupils and parents
 - Ensure that the published equality information is updated at least every year, and that the objectives are reviewed and updated at least every 4 years
 - Delegate responsibility for monitoring the achievement of the objectives on a daily basis to the headteacher
-

The headteacher and senior leaders will:

- Promote knowledge and understanding of the equality objectives among staff and pupils
- Monitor success in achieving the objectives and report back to governors

All staff will:

- Support the headteacher in promoting knowledge and understanding of the equality objectives among staff and pupils
- Support the headteacher in identifying any staff training needs, and deliver training as necessary
- Report any incidents where discrimination has been witnessed on CPOMS, ensuring the correct characteristic is indicated
- Use Restorative Principles immediately after an incident where discrimination has been used, so the impact of actions is understood

4. Eliminating discrimination

The schools are aware of their obligations under the Equality Act 2010 and comply with non-discrimination provisions.

Where relevant, our policies include reference to the importance of avoiding discrimination and other prohibited conduct.

Staff and governors are regularly reminded of their responsibilities under the Equality Act – for example, during meetings. Where this has been discussed during a meeting it is recorded in the meeting minutes.

New staff receive training on the Equality Act as part of their induction, and all staff receive refresher training annually.

We believe that equality at our school should permeate all aspects of school life and it is the responsibility of every member of staff. Every member of the school community should feel safe, secure, valued and of equal worth. At the schools, equality is a key principle for treating everyone equally and fairly.

The characteristics that are protected by the Equality Act 2010 are:

- Age
- Disability
- Gender reassignment
- Marriage or civil partnership (in employment only)
- Pregnancy or maternity
- Race
- Religion or belief
- Sex
- Sexual orientation

5. Advancing equality of opportunity

As set out in the DfE guidance on the Equality Act, the school aims to advance equality of opportunity by:

- Removing or minimising disadvantages suffered by people that are connected to a particular characteristic they have (e.g. pupils with disabilities, or gay pupils who are being subjected to homophobic bullying)
- Taking steps to meet the particular needs of people who have a particular characteristic (e.g. enabling Muslim pupils to pray at prescribed times)

- Encouraging people who have a particular characteristic to participate fully in any activities (e.g. encouraging all pupils to be involved in the full range of school societies)

In fulfilling this aspect of the duty, the school will:

- Analyse the data referenced above to determine strengths and areas for improvement, implement actions in response and publish this information
- Make evidence available identifying improvements for specific groups (e.g. declines in incidents of homophobic or transphobic bullying)
- Analyse data about any issues associated with particular protected characteristics, identifying any issues which could affect our own pupils

6. Fostering good relations

The school aims to foster good relations between those who share a protected characteristic and those who do not share it by:

- Using Restorative Principles to ensure children understand the impact of their actions and to support children adapt their behaviour in the future
- Promoting the 4 R Values: Respect, Resilience, Responsibility and Reflection, so they are embedded throughout the schools and form an important part of the children's behavioural, social and emotional development
- Ensuring pupils' views are actively encouraged through the use of pupil surveys, the School Council, learning walks and pupil interviews
- Promoting tolerance, friendship and understanding of a range of religions and cultures through different aspects of our curriculum. This includes teaching in RE, citizenship and personal, social, health and economic (PSHE) education, but also activities in other curriculum areas. For example, as part of teaching and learning in English/reading, pupils will be introduced to literature from a range of cultures
- Holding assemblies dealing with relevant issues. Pupils will be encouraged to take a lead in such assemblies and we will also invite external speakers to contribute
- Working with our local community. This includes inviting leaders of local faith groups to speak at assemblies, and organising school trips and activities based around the local community
- Encouraging and implementing initiatives to deal with tensions between different groups of pupils within the school. For example, our school council has representatives from different year groups and is formed of pupils from a range of backgrounds. All pupils are encouraged to participate in the school's activities, such as sports clubs. We also work with parents to promote knowledge and understanding of different cultures
- Developing links with people and groups who have specialist knowledge about particular characteristics, which helps inform and develop our approach

7. Equality considerations in decision-making

The school ensures it has due regard to equality considerations whenever significant decisions are made.

The school always considers the impact of significant decisions on particular groups. For example, when a school trip or activity is being planned, the school considers whether the trip:

- Cuts across any religious holidays
- Is accessible to pupils with disabilities
- Has equivalent facilities for boys and girls

The BPP schools actively consider our equality duties and ask ourselves relevant questions throughout the academic year. When planning educational visits and visitors, equal opportunities are always considered and if children are unable to attend due to their needs, alternative experiences will be sought.

8. Staff Recruitment and Professional Development

The schools have measures in place to ensure that there is no discrimination in application processes, or with staff development:

- All posts are advertised formally and open to the widest pool of applicants possible
- At least one member of the short-listing and interviewing will be trained with Safer Recruitment and will have read the Equality Policy
- Access to opportunities for professional development is monitored on equality grounds
- All staff are made aware of the Equalities Policy and the Equality objectives

9. Monitoring arrangements

The Headteacher will update the equality information we publish, at least every year.

This document will be reviewed by at least every 4 years.

This document will be approved by FGB.
